Tuhin Khan
Web Developer

OBJECTIVE

To take a challenging role as a web developer in a technical company where I could utilize my skills in web design and development, and use these skills in providing quality service to the company.

SKILLS

Comfortable: React, React Router, JavaScript, ES6, HTML, CSS, SCSS, Bootstrap, WordPress.
Familiar: Redux, Node.js, Express.js, MongoDB, jQuery, Material-UI, Heroku, Netlify, Firebase.
Tools: Git, GitHub, Visual Studio Code, Atom, npm, Chrome Dev Tools, cPanel, Adobe XD, Figma.

PROJECTS

Apartment Hunt | Website | GitHub
- It's a MERN (MongoDB, Express.js, React.js, Node.js) stack project with a responsive layout.
- It has a protected routes system with firebase google sign-in authentication.
- A user can post an apartment for rent, which is saved in a database and will be visible in UI.
- Also, a user can submit a request for rent, which will be visible in the dashboard.
Technology: React, Redux, React Router, Node.js, Express.js, MongoDB, Bootstrap, Firebase. Heroku.

Creative Agency | **Website** | **GitHub**
- It's a MERN (MongoDB, Express.js, React.js, Node.js) stack project with a protected routes system.
- A customer can order and review for a service which is saved in a database and will be visible in UI.
- An admin can see orders in the dashboard and mark them if it's done or pending.
- An admin can add a new service from the dashboard which will be visible in the services section.
Technology: React, React Router, Node.js, Express.js, MongoDB, Bootstrap, Firebase. Heroku.

Doctor's Portal | **Website** | **GitHub**
- Single page web application with the dashboard and responsive layout.
- A patient can book an appointment for a specific date and time.
- A doctor can see appointments for a specific date and prescribe medicine from his dashboard.
Technology: React, React Router, Node.js, Express.js, MongoDB, Bootstrap, Firebase. Heroku.

Volunteer Network | Website | GitHub
- Single page web application with a dashboard for a volunteer community.
- People can choose volunteer work for a specific date and delete it if they want.
- An admin can add new volunteer work that will be visible in the events section.
Technology: React, React Router, Node.js, Express.js, MongoDB, Bootstrap, Firebase. Heroku.
